STD EGTE 1100z

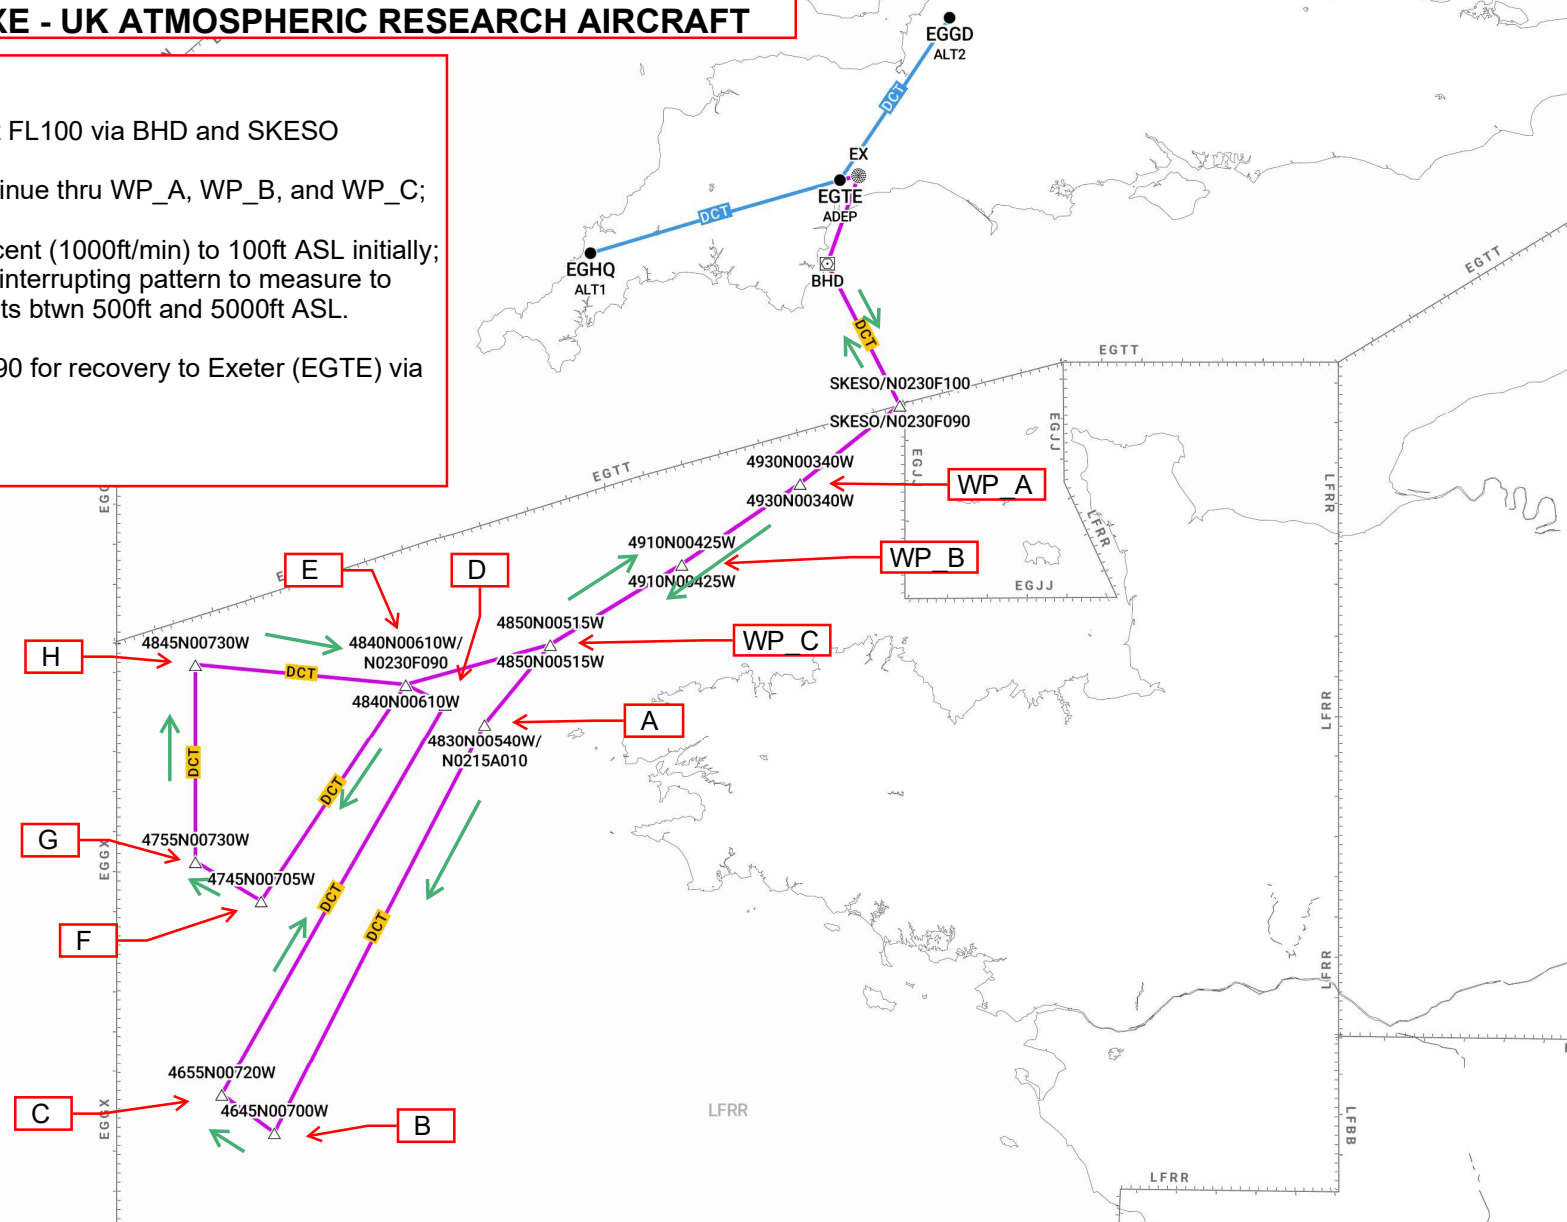

Depart Exeter (EGTE) and route at FL100 via BHD and SKESO

At SKESO descend to FL090; continue thru WP_A, WP_B, and WP_C;

From point "A" conduct profile descent (1000ft/min) to 100ft ASL initially; then fly via points "B" through "H" (interrupting pattern to measure to measure ship exhaust plumes at alts btwn 500ft and 5000ft ASL).

Return to point E and climb to FL090 for recovery to Exeter (EGTE) via WP_C, _B, _A, SKESO, and BHD.
